

Make the Most of Your Tied Up Soil Nutrition

BioSoluFix is a broad-spectrum soil + rhizosphere biological consortium designed to:

- Fix and cycle nitrogen, support residue breakdown and microbial activity
- Solubilize phosphorus & mobilize tied-up nutrients
- Enhance root architecture & nutrient/water uptake
- Improve stress tolerance and stand uniformity (cold starts, wet soils, dry spells)
- Improve nutrient-use efficiency (NUE) and ROI in every pass

Product Information

Why this is important?

Fertilizer prices continue to spike, and making the most of your current tied up nutrients and efficient use of applied fertilizer programs are more important than ever.

- | | |
|-----------------------------|---------------------------------|
| • Azotobacter + Rhizobium → | Nitrogen supply system |
| • Glomus → | Nutrient & water capture system |
| • Bacillus → | Root health + efficiency system |
| • Acidithiobacillus → | Nutrient unlocking system |

Together, they create a full rhizosphere engine:

Fix → Unlock → Capture → Protect → Convert into Yield

Why GrainRx:

A lot of fertility programs focus on what gets applied — but not always on how efficiently the crop actually uses it. That's where GrainRx fits in. What we're helping growers do right now:

- Increase nutrient availability and uptake by supporting live biologicals
- Improve nutrient efficiency and reduces loss
- Build stronger root systems for better early vigor
- Help crops handle multiple types stress from weather, temperature and field conditions
- Unlock nutrients already tied up in the soil

GrainRx is built to work with your current fertility program — not replace it — so you can get more performance out of the dollars you're already spending.

Refer to the product label for complete application rates, mixing instructions, and use guidelines. Important: Always read and follow label directions. This product should be used only as directed. The distributor makes no warranties, expressed or implied, regarding the use of this product inconsistent with label instructions and assumes no liability for improper handling, storage, or application. Keep out of reach of children.
