

Early Energy, Stress Defense & Structural Strength

Aminova M4 is built on a simple principle: When crops stay efficient under stress, they yield more. Instead of relying on a single mode of action, Aminova M4 combines:

- Targeted nutrition supports the root–microbe interface and rhizosphere conditions that favor beneficial fungi
- Advanced biostimulants
- Chelated micronutrients (Zn, Mn, Cu) that remain soluble and plant available
- Stress-management technology to support the plant at every stage of growth

Product Information

Four Modes. One Outcome

Crops recover quicker from weather and application stress for more consistent yield.

Works well in all passes because it includes biostimulant signaling + fast nutrition + chelation, it fits multiple windows:

- **Early vegetative:** drive root/canopy + prevent hidden hunger
- **Rapid growth:** keep micros/K/phosphate available
- **Late stress events:** help recovery (especially heat/drought episodes)
- **Reproductive/grain fill:** stress-buffer + support partitioning/test weight

Why GrainRx:

A lot of fertility programs focus on what gets applied — but not always on how efficiently the crop actually uses it. That's where GrainRx fits in. What we're helping growers do right now:

- Increase nutrient availability and uptake by supporting live biologicals
- Improve nutrient efficiency and reduces loss
- Build stronger root systems for better early vigor
- Help crops handle multiple types stress from weather, temperature and field conditions
- Unlock nutrients already tied up in the soil

GrainRx is built to work with your current fertility program — not replace it — so you can get more performance out of the dollars you're already spending.

Refer to the product label for complete application rates, mixing instructions, and use guidelines. Important: Always read and follow label directions. This product should be used only as directed. The distributor makes no warranties, expressed or implied, regarding the use of this product inconsistent with label instructions and assumes no liability for improper handling, storage, or application. Keep out of reach of children.
